# SP Exeter Branch Points Allocation and Prioritization

After my presentation on the SP Exeter Branch, there were a lot of questions about my points system and how it worked. Though I tried to explain it, I thought it prudent to write a document to add clarity and give a demonstration of how the system works with examples. The pages below will walk you thru the process.

In the example, I will show session assignments September thru December. I will include how the process works for existing operators, the introduction of new operators, and the resolution of ties in total points.

I use Microsoft Excel to manage the list

If you still have questions, I can be reach via email at [spladivision@gmail.com](mailto:spladivision@gmail.com)

Points Allocation:
- Points specifically represent the pick order for the operator.
- Pick 1 gets 1 point
- Pick 2 gets 3 points
- Pick 3 gets 5 points
- Pick 4 gets 7 points
- Pick 5 gets 9 points.
- Points do not reflect attendance, performance, penalties, or anything else. Just the order of selection for each session.

Precondition: The operators in this have been operating for a couple of years on the SP Exeter Branch, thus they have an accumulated average. This helps to make the example more obvious.
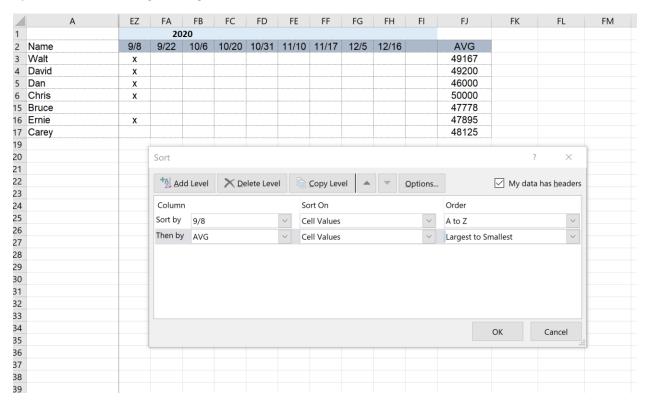

Note: I apologize for the spacing, but this is a limitation of creating this document in MS Word.

# SP Exeter Branch Points Allocation and Prioritization

**9/8/2020 Session**

**Step 1:** Participants are Walt, David, Dan, Chris, and Ernie. Mark an  X for each operator assigned to the 9/8/2020 session.

| 22 | | | | | | | | | | | | |

**12/16/2020 Session**

**Step 1:** Participants are Bill, Dan, Tom, Walt, Carey.

| | A | EZ | FA | FB | FC | FD | FE | FF | FG | FH | FI | FJ |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 1 | | | | | | 2020 | | | | | | |
| 2 | Name | 9/8 | 9/22 | 10/6 | 10/20 | 10/31 | 11/10 | 11/17 | 12/5 | 12/16 | | AVG |
| 3 | Bill | | | | | | | | 1 | x | | 10000 |
| 4 | David | 3 | 5 | | 5 | 5 | | 7 | 3 | | | 48710 |
| 5 | Dan | 9 | 3 | 7 | | | 3 | | 5 | x | | 48000 |
| 6 | Ernie | 7 | | 1 | 9 | 1 | | | 7 | | | 48333 |
| 15 | Tom | | | | 1 | 9 | 1 | | 9 | x | | 50000 |
| 16 | Walt | 5 | 1 | | 7 | | | 9 | | x | | 50000 |
| 17 | Bruce | | 9 | 5 | | 3 | 7 | 5 | | | | 48800 |
| 19 | Carey | | 7 | 3 | | 7 | 5 | 3 | | x | | 48378 |
| 20 | Chris | 1 | | 9 | 3 | | 9 | 1 | | | | 48333 |
| 21 | | | | | | | | | | | | |

**Step 2:** Sort the list by 1) Session Date and 2) AVG in descending or 'Largest to Smallest' order

**Step 3:** The result is a sorted list with the highest AvG first. Note: Tom and Walt tie with 50000 each. When this happens, the person who has the lowest pick from their last session wins the tie. In this instance, both Tom and Walt's last picks were 9. So, I go back one pick further. In review, Tom was 1 and Walt was 7. Since Walt had the lower pick of 7, he wins the tie and will get pick 1 for the 12/16/2020 session.
